ATEX Resources Inc.

(Formerly – Colombia Crest Gold Corp.)

Unaudited Condensed Interim Financial Statements

For the Nine Months Ended June 30, 2019 and 2018

(Expressed in Canadian Dollars)

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited condensed interim financial statements of ATEX Resources Inc. (the "Company") (formerly Colombia Crest Gold Corp.) were prepared by management, on behalf of the Board of Directors, in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board. These unaudited condensed interim financial statements do not include all of the disclosures required for annual financial statements and therefore should be read in conjunction with the Company's audited annual financial statements and notes thereto for the year ended September 30, 2018. These unaudited condensed interim financial statements follow the same significant accounting policies and methods of application as those included in the Company's most recent audited annual financial statements, as described in Note 3. Management acknowledges responsibility for the preparation and presentation of the financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances. The Company's significant accounting policies are summarized in Note 2 to these unaudited condensed interim financial statements. In the opinion of management, the unaudited condensed interim financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

Management has established systems of internal control over the financial reporting process, which are designed to provide reasonable assurance that relevant and reliable financial information is produced.

The Board of Directors is responsible for reviewing and approving the financial statements and for ensuring that management fulfils its financial reporting responsibilities. The Board of Directors meets with management as well as with the independent auditors to review the internal controls over the financial reporting process, the financial statements and the auditors' report. The Board of Directors also reviews the Company's Management's Discussion and Analysis to ensure that the financial information reported therein is consistent with the information presented in the financial statements.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

The accompanying notes are an integral part of these unaudited condensed interim financial statements

1. Corporate Information

ATEX Resources Inc.'s (formerly Colombia Crest Gold Corp.) business activity is the exploration and evaluation of mineral properties. As described in Note 4, in 2013 the Company ceased its operations in Colombia but still holds a 50% earned interest in the Fredonia property. The Company is currently focused on a newly acquired project in Chile.

The Company was incorporated under the laws of the Province of British Columbia on January 20, 1981 and its common shares are listed for trading on the TSX Venture Exchange ("TSXV") under the symbol "ATX", and on the Frankfurt Stock Exchange under the symbol "EAT". On February 8, 2019, the Company effected a name change from Colombia Crest Gold Corp. to ATEX Resources Inc.

The address of the Company's corporate office and principal place of business is Suite 300, 1055 West Hastings Street, Vancouver, BC.

2. Basis of Preparation

a) Statement of Compliance

The Company's unaudited condensed interim financial statements for the nine months ended June 30, 2019, have been prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("ISAB") and in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting. The significant accounting policies applied in these unaudited condensed interim financial statements are based on IFRS issued as of June 30, 2019.

These unaudited condensed interim financial statements have been prepared using accounting policies consistent with those used in the Company's September 30, 2018 audited annual financial statements.

These unaudited condensed interim financial statements were authorized for issue by the Board of Directors on August 28, 2019.

b) Basis of Measurement

These unaudited condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as available for sale which are at fair value, and have been prepared using the accrual basis of accounting. These unaudited condensed interim financial statements are presented in Canadian dollars unless otherwise noted.

The preparation of these unaudited condensed interim financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

Subsidiaries are fully consolidated from the date on which control is acquired by the Company. They are de-consolidated from the date that control by the Company ceases. As at June 30, 2019 and September 30, 2018, the Company did not hold any interest in any subsidiaries and the financial statements contained transactions pertaining only to the Company.

2. Basis of Preparation – (cont'd)

c) Going Concern of Operations

These unaudited condensed interim financial statements have been prepared assuming the Company will continue on a going-concern basis. At June 30, 2019, the Company had not yet achieved profitable operations, has an accumulated deficit of $87,431,484 and expects to incur further losses in the development of its business. These conditions indicate the existence of material uncertainty which casts significant doubt about the Company's ability to continue as a going concern. The Company's continuing operations are dependent upon economic and market factors which involve uncertainties including the Company's ability to raise adequate equity financing for continuing operations. Realization values may be substantially different from carrying values as shown and accordingly these unaudited condensed interim financial statements do not give effect to adjustments, if any, which would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these unaudited condensed interim financial statements.

3. Summary of Significant Accounting Policies

a) Financial Instruments

Financial Assets

Financial assets are classified into the following categories based on the purpose for which the asset was acquired. All transactions related to financial instruments are recorded on a trade date basis. The Company's accounting policy is as follows:

Loans and Receivables

These assets are non-derivative financial assets resulting from the delivery of cash or other assets by a lender to a borrower in return for a promise to repay on a specified date or dates, or on demand. They are initially recognized at fair value plus transaction costs that are directly attributable to their acquisition or issue and subsequently carried at amortized cost, using the effective interest rate method, less any impairment losses. Amortized cost is calculated taking into account any discount or premium on acquisition and includes fees that are an integral part of the effective interest rate and transaction costs. Gains and losses are recognized in profit or loss when the loans and receivables are derecognized or impaired, as well as through the amortization process.

Impairment on Financial Assets

At each reporting date the Company assesses whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired, if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset or the group of financial assets.

3. Summary of Significant Accounting Policies – (cont'd)

a) Financial Instruments – (cont'd)

Financial liabilities are classified as other financial liabilities, based on the purpose for which the liability was incurred, and comprise accounts payable and accrued liabilities. These liabilities are initially recognized at fair value net of any transaction costs directly attributable to the issuance of the instrument and subsequently carried at amortized cost using the effective interest rate method. This ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the statement of financial position. Interest expense in this context includes initial transaction costs and premiums payable on redemption, as well as any interest or coupon payable while the liability is outstanding.

Accounts payable and accrued liabilities represent liabilities for goods and services provided to the Company prior to the end of the period which are unpaid.

b) Property, Plant and Equipment

Depreciation is calculated on a declining balance basis. Property, plant and equipment acquired in a fiscal year are depreciated at one-half of the annual rate. Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.

c) Share Capital

Incremental costs directly attributable to the issue of new common shares or options are shown in equity as a deduction, net of tax, from the proceeds. Common shares issued for non-monetary consideration are recorded at their market value based upon the trading price of the Company's common shares on the TSXV on the date of share issuance.

d) Loss Per Share

Basic loss per share is computed by dividing the loss for the period by the weighted average number of common shares outstanding during the period. Diluted earnings/loss per common share is computed by dividing the net income or loss applicable to common shares by the sum of the weighted average number of common shares outstanding and all additional common shares that would have been outstanding, if potentially dilutive instruments were converted.

e) Standards, Amendments and Interpretations Not Yet Effective

Certain new accounting standards and interpretations have been published that are not mandatory for the September 30, 2018 reporting period. The Company has not early adopted the following new and revised standards, amendments and interpretations that have been issued but are not yet effective:

- IFRS 16 Leases (effective January 1, 2019).

The Company anticipates that the application of the above new and revised standards, amendments and interpretations will have no material impact on its results and financial position.

(Unaudited - Expressed in Canadian Dollars)

4. Exploration and Evaluation Assets

Colombia:

The Company has a 50% interest in the Fredonia Property in Colombia, which is maintained pursuant to an agreement with the titleholder.

The Company ceased its four year exploration operation in Colombia and closed its branch office during fiscal 2013 and its entire investment of $6,600,686 in Colombia was written off.

Pursuant to an agreement dated August 13, 2010, the Company had an option to acquire up to a 75% interest in the mineral title of the Fredonia Property located in Antioquia, Colombia. In November, 2013, notice was provided to the optionor that the Company had earned a 50% interest in the Fredonia property and that it did not intend to incur any further exploration or concession expenditures. Any future expenditures incurred by the optionor and/or other third parties may have the effect of diluting the Company's earned interest. At the time of the Company's notice, the Fredonia Property consisted of three concessions totaling 4,563 hectares. The optionor subsequently dropped two of the concessions and the remaining one covers 1,967 hectares.

Chile:

In July, 2019, the Company entered into agreements to acquire the Alicia, Roma and Condor properties, referred to collectively as the Apolo Concessions, located within the northern extension of the Maricunga Mineral Belt, Region III, Chile.

Under the terms of the agreements, the Company will pay a total of US$7.6 million by December 31, 2022 to acquire a 100% ownership interest in the concessions with payments as follows: US$145,000 paid upon signing; US$85,000 by May 31, 2020; US$85,000 by May 31, 2021; US$85,000 by May 31, 2022; and, US$7.2 million by December 31, 2022. A total 2.0% net smelter royalty is payable to the vendors of the Apolo Concessions subject to a 0.75% buyback for US$6 million.

Work commitments within the agreement require the Company to complete 3,000 metres of drilling by May 31, 2020 with 13,000 metres to be completed by May 31, 2022.

5. Related Party Transactions

Key management personnel are persons responsible for planning, directing and controlling activities of the entity. The Company's key management personnel are the CEO, CFO and a senior director who performs the accounting duties and their compensations are included in the following:

	For the Three Months Ended June 30,		For the Nine Months Ended June 30,	
	2019 $	2018 $	2019 $	2018 $
Management fees	27,710	9,335	42,429	24,730
Administrative fees	27,517	6,000	41,429	18,000
Accounting fees	4,650	-	4,650	-
Total	59,877	15,335	83,858	42,730

(Unaudited - Expressed in Canadian Dollars)

5. Related Party Transactions – (cont'd)

Related party liabilities included in trade and other payable are as follows:

	June 30, 2019	
	2019	2018
Amounts due to management	$	$
Management fees	2,417	4,387
Administration fees	2,305	2,000
Accounting	4,661	-
Total	9,383	6,387

Amounts due to related parties are unsecured, non-interest bearing and have no specific terms of repayment.

In May 2019, 645,000 stock options were granted to directors and officers of the Company with each stock option exercisable to purchase one common share at $0.25 until May 8, 2024. (Note 6 (d).)

6. Share Capital

a) Authorized:

Authorized share capital consists of an unlimited number of common shares without par value.

b) Issued:

In April 2018, the Company completed a ten for one (10:1) share consolidation. As at September 30, 2018 and December 31, 2018 there were 9,608,854 common shares outstanding.

On February 8, 2019, the Company completed a three for one (3:1) share consolidation and as at March 31, 2019 there were 3,202,595 common shares outstanding.

In April 2019, the Company closed a non-brokered private placement by issuing 10,000,000 units at a price of $0.15 per unit for gross proceeds of $1,500,000. Each unit consisted of one common share and one common share purchase warrant. Each common share purchase warrant entitles the holder to purchase one common share at a price of $0.20 per share until April 29, 2024.

c) Share Purchase Warrants:

The continuity of common share purchase warrants is as follows:

	Number of Warrants	Weighted Average Exercise Price
Balance – September 30, 2017 and 2018	-	-
Issued pursuant to private placement	10,000,000	$0.20
Balance – June 30, 2019	10,000,000	$0.20

(Unaudited - Expressed in Canadian Dollars)

6. Share Capital – (cont'd)

c) Share Purchase Warrants: - (cont'd)

Details of common share purchase warrants outstanding at June 30, 2019:

Number of Warrants	Exercise Price	Expiry Date	Remaining Life (Years)
10,000,000	$0.20	April 29, 2024	4.83

d) Stock Options:

The Company has a stock option plan whereby the maximum number of common shares reserved for issue under the plan shall not exceed 10% of the outstanding common shares. The maximum number of common shares reserved for issue to any one person under the plan cannot exceed 5% of the outstanding number of common shares at the date of the grant and the maximum number of common shares reserved for issue to a consultant or a person engaged in investor relations activities cannot exceed 2% of the outstanding number of common shares at the date of the grant. Options vest at the date of grant, unless otherwise noted. The exercise price of each option granted under the plan may not be less than the Discounted Market Price (as that term is defined in the policies of the TSXV). Options may be granted for a maximum term of ten years from the date of the grant, are non-transferable and expire within 90 days of termination of employment or holding office as Director or officer of the Company and, in the case of death, expire within one year thereafter.

The continuity of stock options is as follows:

	Number of Stock Options	Weighted Average Exercise Price $
Balance - September 30, 2017 and 2018	-	-
Granted	1,195,000	0.25
Cancelled	(35,000)	0.25
Balance - June 30, 2019	1,160,000	0.25

During the period ended June 30, 2019:

- the Company granted 1,195,000 stock options in May 2019 with each stock option exercisable to purchase one common share at $0.25 until May 8, 2024. 645,000 stock options were granted to Directors and officers and 550,000 stock options were granted to consultants.

- 35,000 stock options granted to a consultant were cancelled due to termination of services.

Details of stock options outstanding at June 30, 2019:

Date Granted	Number of Options	Exercise Price	Expiry Date	Remaining Life (Years)	Unit Fair Value
May 8, 2019	1,160,000	$0.25	May 8, 2024	4.85	$0.22

(Unaudited - Expressed in Canadian Dollars)

6. Share Capital – (cont'd)

d) Stock Options: - (cont'd)

The fair values were estimated using the Black-Scholes option pricing model with the following pricing parameters with no dividend yield expected:

Risk-Free Interest Rate	Expected Life (Years)	Volatility Factor
1.57%	5	141%

e) Share subscriptions:

During the period share subscriptions were written off to contributed surplus as it is unlikely that the related shares will be issued.

f) Contributed Surplus:

	Stock-based Comp. $	Brokers' Warrants $	Equity Portion of Convertible Debentures $	Options on Properties $	Shares allotted $	Total $
Balance - Sept. 30, 2017 and 2018	4,906,516	319,896	460,000	342,028	1,875	6,030,315
Stock-based compensation	258,333	-	-	-	-	258,333
Shares allotted cancelled	-	-	-	-	1,156,000	1,156,000
Balance - June 30, 2019	5,164,849	319,896	460,000	342,028	1,157,875	7,444,648

Contributed surplus is used to recognize the value of stock options granted and common share purchase warrants issued prior to exercise, the equity portion of convertible debentures not converted and value of escrow shares cancelled for no additional consideration.

7. Management of Financial and Other Risk

The Company's financial instruments are exposed to financial risks as summarized below:

(a) Fair Value:

The carrying amount of cash and accounts payable and accrued liabilities represent their fair value due to their short-term nature. Fair value represents the amount that would be exchanged in an arm's length transaction between willing parties and is best evidenced by a quoted market price if one exists.

(b) Credit Risk:

The Company's credit risk is primarily attributable to cash. The Company has no significant concentration of credit risk arising from operations.

7. Management of Financial and Other Risk – (cont'd)

(c) Liquidity Risk:

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2019, the Company had a cash balance of $1,495,344 to settle current liabilities of $77,303. All of the Company's financial liabilities have contractual maturities of 30 days or less and are subject to normal trade terms.

(d) Interest Rate Risk:

The Company's cash primarily includes highly liquid bank deposits that do not earn interest. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values as of June 30, 2019. Future cash flows from interest income on cash will be affected by interest rate fluctuations. The Company manages interest rate risk by maintaining an investment policy for short-term investments. This policy focuses primarily on preservation of capital and liquidity.

(e) Other Risk:

The Company is exposed to price risk with respect to the commodity price of base and precious metal. Future declines in this commodity prices may impact the future profitability of the Company and the valuation of its exploration and evaluation assets. A significant decline in base and precious metal prices may affect the Company's ability to obtain capital for the exploration and development of its mineral properties.

8. Subsequent Events

The following event occurred subsequent to June 30, 2019:

- On July 8, 2019, the Company granted 35,000 stock options to a consultant with each option exercisable to purchase one common share at $0.30 until July 8, 2024.
