MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited condensed interim consolidated financial statements of ATEX Resources Inc. (the "**Company**") were prepared by management, on behalf of the Board of Directors, in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board. These unaudited condensed interim consolidated financial statements do not include all of the disclosures required for annual financial statements and therefore should be read in conjunction with the Company's audited annual consolidated financial statements and notes thereto for the year ended September 30, 2021. These unaudited condensed interim consolidated financial statements follow the same significant accounting policies and methods of application as those included in the Company's most recent audited annual consolidated financial statements, as described in Note 2. Management acknowledges responsibility for the preparation and presentation of the financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances. The Company's significant accounting policies are summarized in Note 2 to these unaudited condensed consolidated interim financial statements. In the opinion of management, the unaudited condensed interim consolidated financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

Management has established systems of internal control over the financial reporting process, which are designed to provide reasonable assurance that relevant and reliable financial information is produced.

The Board of Directors is responsible for reviewing and approving the financial statements and for ensuring that management fulfils its financial reporting responsibilities. The Board of Directors meets with management as well as with the independent auditors to review the internal controls over the financial reporting process, the financial statements and the auditors' report. The Board of Directors also reviews the Company's Management's Discussion and Analysis to ensure that the financial information reported therein is consistent with the information presented in the financial statements.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

The accompanying notes are an integral part of these consolidated financial statements

1. Corporate Information

The business activity of ATEX Resources Inc. (the "**Company**") is the exploration and evaluation of mineral properties in South America. The Company was incorporated under the laws of the Province of British Columbia on January 20, 1981 and its common shares are listed for trading on the TSX Venture Exchange ("**TSXV**") under the symbol "ATX".

These consolidated financial statements include the results of the Company's 100% owned subsidiaries, ATEX Chile SpA ("**ATEX Chile**") and ATEX Valeriano SpA ("**ATEX Valeriano**"), both companies incorporated in Chile. The address of the Company's corporate office and is Suite 1900, 25 Adelaide Street East, Toronto, Ontario.

2. Basis of Preparation

a) Statement of compliance

The Company's unaudited condensed interim consolidated financial statements for the six months ended March 31, 2022, have been prepared using accounting policies consistent with International Financial Reporting Standards ("**IFRS**") as issued by the International Accounting Standards Board ("**IASB**") and in accordance with International Accounting Standards ("**IAS**") 34, Interim Financial Reporting. The significant accounting policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS issued as of March 31, 2022.

These statements were authorized for issue by the Board of Directors on May 26, 2022.

b) Basis of Measurement

These financial statements have been prepared on a historical cost basis, except for financial instruments classified as available for sale which are at fair value, and have been prepared using the accrual basis of accounting.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. These critical accounting estimates are disclosed in Notes 4 of the audited annual consolidated financial statements for the year ended September 30, 2021.

c) Basis of Consolidation

These consolidated financial statements include all subsidiaries of the Company. Subsidiaries are entities over which the Company is able, directly or indirectly, to control financial and operating policies, which is the authority usually connected with holding majority voting rights. Subsidiaries are fully consolidated from the date on which control is acquired by the Company. They are de-consolidated from the date that control by the Company ceases. All significant inter-company transactions and balances are eliminated.

These consolidated financial statements include the accounts of the Company, ATEX Chile and ATEX Valeriano. All significant inter-company transactions and balances have been eliminated.

d) Going Concern of Operations

These consolidated financial statements have been prepared assuming the Company will continue on a going-concern basis. As at March 31, 2022, the Company had not yet achieved profitable operations, has an accumulated deficit of $91,864,941, and expects to incur further losses in the development of its business. These conditions indicate the existence of material uncertainty which casts significant doubt about the Company's ability to continue as a going concern. The continuing operations of the Company are dependent upon economic and market factors which involve uncertainties including the Company's ability to raise adequate equity financing for continuing operations. Realization values may be substantially different from carrying values as shown and accordingly these consolidated financial statements do not give effect to adjustments, if any, which would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these consolidated financial statements.

(e) COVID-19 Estimation Uncertainties

The outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weaknesses. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. The Company may incur significant delays in planned exploration activity, impacting its ability to meet obligations under current regulations or its agreements and may reduce its ability to source financing for future activities. However, it is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and conditions of the Company in future periods at this time.

2. Summary of Significant Accounting Policies

The financial framework and accounting policies applied in the preparation of the interim financial statements are consistent with the policies disclosed in Notes 2 and 3 of the audited annual consolidated financial statements for the year ended September 30, 2021.

The Company did not adopt any new accounting policies during the six months ended March 31, 2022.

3. Exploration and Evaluation Assets

The Company's exploration properties are located Chile in South America, and its interest in these resource properties was maintained pursuant to agreements with the titleholders.

Valeriano Project:

In August 2019, the Company, through its wholly-owned Chilean subsidiary, ATEX Valeriano, entered into an option agreement to acquire up to a 100% interest in the 3,705-hectare Valeriano Copper/Gold Property located in Region III, Chile.

Pursuant to the option agreement, as amended January 15, 2020 and January 14, 2021, to acquire an initial 49% property interest the Company is required to:

- Pay US$4.25 million, including:
    - US$200,000 upon signing (paid);
    - US$300,000 on January 14, 2021 (paid);
    - US$250,000 by August 30, 2022; and
    - US$3.5 million by August 29, 2023 (50% of which may be paid via the issuance of common shares, at the Company's discretion).

- Complete the following work commitments:
    - Incur US$10.0 million in exploration expenditures on the property, including at least 8,000 metres of drilling by August 29, 2023.

Upon the Company acquiring the initial 49% interest, ATEX Valeriano and the optionor shall incorporate a joint stock company owned by both parties proportionate to each party's respective property ownership interest.

After earning the initial 49% property interest, to acquire a further 51% property interest, increasing the Company's interest to 100%, the Company is required to do the following:

(Expressed in Canadian Dollars)

- Pay US$8.0 million by August 29, 2025 (50% of which may be paid via the issuance of common shares, at the optionor's discretion); and
- Incur a further US$5.0 million in exploration expenditures on the property by August 29, 2025.

Upon the Company earning a full 100% property interest, the optionor shall also transfer its ownership interest in the incorporated joint stock company, resulting in the Company owning 100% of this company. ATEX Valeriano shall also grant a 2.25% net smelter royalty to the optionor.

The option was originally granted by the optionor to SBX Asesorías e Inversiones Limitada ("**SBX**") under an agreement dated August 29,2019, as amended May 21, 2020. Under a transfer and assignment agreement with SBX, the Company paid US$150,000, shall issue 2 million units and shall grant a 0.25% net smelter royalty to SBX. Each unit is to consist of one common share and one common share purchase warrant exercisable at $0.40 per common share for four years from vesting. 1.0 million of the units vested and were issuable on December 31, 2020, subject to SBX not becoming an insider of the Company and a further 1.0 million units vest and are issuable upon the Company making the US$3.5 million option payment due by August 29, 2023 under the Valeriano option agreement. Under this agreement the Company issued 600,000 units to SBX on December 31, 2020 and a further 400,000 units to SBX on December 10, 2021. See Note 4.

Generative Projects:

ATEX Chile's generative projects are properties in Chile staked by the Company for early-stage mineral exploration. ATEX Chile staked five such properties. Three of these generative projects were subsequently dropped in the three months ended March 31, 2022 and the related capitalized expenditures were written off.

4. Share Capital

a) Authorized

Authorized share capital consists of an unlimited number of common shares without par value.

b) Issued

On March 31, 2022, there were 101,485,521common shares outstanding.

On November 23, 2020, the Company issued 16,500,000 units at $0.20 per unit for gross proceeds of $3,300,000 pursuant to a brokered private placement. Each unit consisted of one common share and one common share purchase warrant. Each warrant is exercisable to acquire one common share at a price of $0.30 per common share until November 23, 2022. The agents received a cash fee equal to 6.0% of the gross proceeds from the offering. In addition, the Company granted the agents compensation options equal to 8.0% of the total number of units sold under the offering. Each compensation option entitled the agent to purchase one unit at an exercise price of $0.20 until November 23, 2021. The compensation options were valued at $128,498 using the Black-Scholes option pricing model.

On December 2, 2021, the Company issued 59,800,000 units at $0.1425 per unit for gross proceeds of $8,521,500 pursuant to a brokered private placement. The agent for the offering was Desjardins Capital Markets. Each unit consisted of one common share and one common share purchase warrant. Each warrant is exercisable to acquire one common share at a price of $0.22 per common share until December 2, 2024. The Company paid the agent a cash fee of $296,075 in respect of this brokered private placement.

Under the original Valeriano Project transfer and assignment agreement with SBX, the Company issued 600,000 units to SBX on December 31, 2020 and a further 400,000 units to SBX on December 10, 2021. Each unit consisted of one common share and one common share purchase warrant exercisable at $0.40 per common share until December 31, 2024. See Note 3.

6. Capital Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern and to maintain a flexible capital structure which will allow it to pursue the exploration of its mineral properties. Therefore, the Company monitors the level of risk incurred in its mineral property expenditures relative to its capital structure which is comprised of working capital and shareholders' equity.

The Company monitors its capital structure and makes adjustments in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to facilitate the management of capital and the exploration of its mineral properties, the Company prepares annual expenditure budgets which are updated as necessary and are reviewed and periodically approved by the Company's Board of Directors. To maintain or adjust the capital structure, the Company may issue new equity if available on favourable terms, option its mineral properties for cash and/or expenditure commitments from optionees, enter into joint venture arrangements, or dispose of mineral properties.

The Company's investment policy is to hold excess cash in interest bearing bank accounts.

The Company is not subject to externally imposed capital requirements. There has been no change in the Company's approach to capital management during the period ended March 31, 2022.

7. Financial Instruments and Risk Management

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities. The Company has exposure to credit risk, liquidity risk and market risk as a result of its use of financial instruments.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board has implemented and monitors compliance with risk management policies as set out below.

a) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Financial instruments which are subject to credit risk for the Company consist primarily of cash and long-term receivable. The Company manages credit risk by investing its cash with high credit-worthy financial institutions and completing due diligence on significant counterparties that the Company has entered into contracts.

b) Liquidity Risk

Liquidity risk is the risk that the Company will incur difficulties meeting its financial obligations as they are due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions without incurring unacceptable losses or risking harm to the Company's reputation.

As at March 31, 2022, the Company's cash on hand is less than the financial liabilities comprising of accounts payable and accrued liabilities and forecast expenditures for the next year and the Company therefore will need to raise additional funds to continue meeting its obligations in the future.

c) Market Risk

Market risk consists of currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable limits, while maximizing returns.

i) Foreign Currency Risk

Foreign currency risk is the risk that a variation in exchange rate between the Canadian and US dollar or other foreign currencies will affect the Company's operations and financial results. As such the Company has exposure to foreign currency exchange rate fluctuations. The Company has not entered into any agreements or purchased any instruments to hedge possible foreign currency risks.

The following table reflects the Company's foreign currency exposure from US dollars as of March 31, 2022:

	US$
Financial assets:	
Cash	3,571,971
Financial liabilities:	
Accounts payable and accrued liabilities	-

(Expressed in Canadian Dollars)

As at March 31, 2022, with other variables unchanged, a 10% change in the value of the Canadian dollar against the US dollar would result in an approximate $446,354 decrease or increase in loss and comprehensive loss.

The following table reflects the Company's foreign currency exposure from Chilean Pesos as of March 31, 2022:

	Chilean Pesos
Financial assets:	
Cash	129,446,257
Other current assets	59,352,318
Financial liabilities:	
Accounts payable and accrued liabilities	167,494,117

As at March 31, 2022, with other variables unchanged, a 10% change in the value of the Canadian dollar against the Chilean peso would result in an approximate $2,166 decrease or increase of loss and comprehensive loss.

ii) Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. Interest rate risk is limited to potential decreases on the interest rate offered on cash and cash equivalents held with chartered Canadian financial institutions. The Company considers this risk to be immaterial.
